

NUSSBAUMER NEIGHBOR

Did you know that aside from non-melanoma skin cancer, **breast cancer** is the most common form of cancer in women? **Breast cancer** is the number one cause of cancer death in Hispanic women. It is the second most common cause of cancer death in white, black, Asian/Pacific Islander, and American Indian/Alaska Native women. Most of us have had someone close to us diagnosed with **breast cancer**. If you have known a woman who was lucky enough to find her cancer early enough to treat, then you know how important it is to continue to fund research to find a cure.

Nussbaumer is taking **steps** to end this terrible disease by forming our own team (Nussbaumer Neighbors) for the American Cancer Society "2010 Making Strides of Buffalo, NY" walk on October 3rd.
